Le Caron's Sensational Stories Melting Under the Cross-Fire.

Sir Charles Russell Forcing Admissions from the Spy.

Radicals Expelled for Joining the Parnell Movement-Big Money Paid the Informer by the Canadian and British Governments.

INY CABLE TO THE PRESS NEWS ASSOCIATION. 1 LONDON, Feb. 12.—The Parnell Commission zeassembled this morning. The small court-

room was inconveniently crowded. Major Le Caron, or Beach, took his place on the witness stand, and his cross-examination was continued by Sir Charles Russell. Mr. Davitt was present and watched the

proceedings closely.

Sir Charles directed his questions to-day mainly to the career of the Major as a spy and paid agent of the British Government, and to the motives and inducements he had

criminal relations between Mr. Kearr and Miss Williams.
Mr. Kearr is a stout, middle-sized man, with gray hair, a mustache and blue eyes. Miss Williams is not unattractive in her appearance. She is a brunette, with a rather snappy look to her black eyes.
Mr. Kearr gave his testimony in a laughing way till Judge Fullerton cornered him on details about his income.

"How much did you settle on your second.

'How much did you settle on your second wife?" asked Judge Fullerton.
'I told her if she could take me with this stench on me from this newspaper talk I would settle \$25,000 on her."

"And could she?" asked Judge Patterson, with an intonation that set the bystanders laughing.

There was no evidence to show the existence of a promise of marriage.

WHO'S THE BRIBER? BOODLE VS. STANDS

Tells the Story.

Then Shuts Up.

The Accused Committee Gets the Handling of the Charges Against It.

ISPECIAL TO THE EVENING WORLD. 1. ALBANY, N. Y., Feb. 12 .- A bomb exploded n the Assembly this morning when Assemblyman Sheehan arose and said that the New York papers had all declared that a bribe of 25,000 had been offered to one of the Appropriation Committee to sign a report whitewashing the gentlemen mixed up in the ceiling

He wished a committee to investigate the nvestigators. There was a good deal of dispute about the appointment of a committee, and there were many demands for the Assemblyman who said be was bribed to stand up and tell the truth about the whole matter.

Finally John Martin, of New York, arose and said that he supposed he was the one reerred to as having been offered the bribe.

I suppose," he said, " that I am the central igure in this matter.

I had intended to take no notice of this

matter, but now I am forced to ventilate what I have heard. Now there is some truth in hese statements.
"A few days ago I received a note to call and

see a gentleman in New York 1 did not recognize the signer's name, but I called to see him at the place mentioned and there I met a man who told me that it would be to my advantage to vote with the majority of the committee." Mr. Aspinal' then interrupted and asked who the man was that offered the bribs. Mr. Martin refused to give the name, saying that he was not there to be catechised on the subect, but at the proper time he would give

As the case stood now he had nothing to prove, as there was only a question of verac-ity between him and the man who approached

him.

Mr. Gallup then got up to ask a question, but Mr. Martin exclaimed: "Wait a minute now and I will answer. I suppose I have gone so far that I may as well tell all I know.
"I will answer all questions. I did not say that I was told that the committee was evenly divided and that the corruptionists needed a sixth man to get the majority of the committee.

Then the questions began to fly thick and fast, and finally Mr. Martin got somewhat ex-cited and sat down without answering any of

them.

Then Mr. Aspinall, of Brooklyn, delivered a stinging speech, in the course of which he said: "Mr. Spenker, if any man came and offered me a bribe, if any man came and in sulted me, would I sit here till the whip stung me in the face and even then refuse to give up the name of the man who had tried to bribe me?

"No, no: I would stand up on this floor and let the whole world know what an attempt had been made to commit a crime."

Mr. Martin made no reply to this. Then Mr. Ainsworth, Chairman of the Committee on Appropriations, made a strong speech

on Appropriations, made a strong speech declaring the innocence of the Committee and saying that the gentiemen from Erie protested too much.

protested too much.

The dispute waxed very warm, and the members glared at each other and shook their hands across the aisles. Many motions were made, but when the smoke cleared away it was resolved that the whole matter should be referred back to the Committee on Appropriations, the very Committee accused of having been corrupted.

Such a ridiculous termination of the matter was entirely unexpected.

It is no wonder that one member, Mr.

It is no wonder that one member, Mr. Blumenthal, declared in his speech that there was always great talk about the evil and wrong of bribers, but when the question came up the members of this Legislatur always humbugged themselves and tried to run away from investigating the charges.

THE NOVEL FEMALE BICYCLISTS'

There is certainly enough of the element of excitement in the six-day bicycle race between a dozen fair wheelwomen at Madison Souare Garden to make the contest exceed. ingly interesting.

The girls, perched on wheels larger than the driving wheels of a passenger locomotive, but light and flimsy as the air, are all eagerness in their efforts to outdo each other and to gain the plaudits of the spectators, and when it is considered that they are riding at a speed of twelve to sixteen miles an hour, and that they must, perforce, be close upon one another on the forty-yard track, the danger of mishap is apparent.

At first the spectators viewed the contest ith apprehensive eyes. A missten on a treadle, the slightest veering from the path, a failure of any part of a machine must result in disaster.

And it came ere the second hour of the race had been completed. In a moment of carelessness Hilda Swallow, the most petite and

To the Editor of The Frendry World:

I desire to have the following dream recorded among those which The Evenino World is now publishing. lost my brother some years ago, Jan. 20,

publishing.

I lost my brother some years ago, Jan. 20, 1883.

While in business in Twenty-fifth street I had great need of an assistant, and had often expressed a wish that my brother had lived to be with me in my business.

On the night of Sept. 28 last I dreamed that my brother walked into my office and asked if I hadn't a position for him. This awakened me.

The next-day Sept. 9. I answered an "ad," which appeared in The World, of a young man who wanted a position in a real estate office, telling him to call with a specimen of his handwriting.

While satting at my desk the next day, Sept. 10, the door opened and in came a young man so exactly like my brother in every respect that I involuntarily called him by my brother's name, "Arthur,"

He answered, "That is my name, sir, but how is it that you know me?"

I then explained to him. It turned out that his name was the same as my brother's, Arthur W. Anderson, and still more strange, that even his signature and handwriting were the same. Inclosed you will find the letter of application and a note of my brother's dated Nov. 29, 1882, showing how exact the signatures are.

I send them as proof that my statement is truthful, Yours truly, E. W. Anderson.

Byron W. Anderson, the writer of the above letter, was found in his office by a reporter of THE EVENING WORLD. He is in the

real estate and insurance business. 'The facts as stated in my letter," said Mr. Anderson, " are perfectly authentic, and I think the series of coincidences as there related is the strangest that I ever

related is the strangest that I ever heard of. I have not yet recovered from the shock which that first sight of the young man gave me, although it happened nearly six months ago."

"Was the resemblance so perfect, then?"

"Well, I have heard of doubles and I have seen twins so exactly alike that you could not tell them apart; but this was a case of an exact image. I had the face of my brother in mind all that morning for having dreamed of him so recently, and when I turned around to tell my caller to sit down I could feel my hair begin to rise and cold chills ran up and down my back.

"It was the same well-built figure, for my

my back.
"It was the same well-built fleure, for my brother Arthur was a good deal of an athlete; the same expression of face, the same black hair an 'mustache, and I could swear to the very twist of the latter that it was my

own brother who stood before me.

'I was going to take him up to my mother, but upon reflection I thought better of it and decided not to do so, for the effect upon myself was so powerful that I was afraid it might affect her more seriously." "Did you employ the young man?"
"No. I could not bring myself to do that, for the whole thing seemed so uncanny that I could not bear to see here."

I could not bear to see him around. About two weeks after he came in About two weeks after he came that morning, upon my advice, suarted West for Kansas City, gave him a letter to the agent in that city pave him a letter to the agent in that city of the Adams Express Company, of which I had been a correspondent for many years, and I heard soon afterwards that my brother's double had obtained a good position in a bank of that city

double had obtained a good position in a bank of that city.

"He wrote me himself, and I have had several letters from him since he established himself in Kansas City thanking me for what I did for him. He had a photograph of my brother and will scon send to back together with one of his own. I wish I had them here now to show you, for the likeness is striking."

"Do you know anything of his antecedents?"

"I only know what he told me—that he came from Glasgow, Scotland, to make his way in this country, for his family had been in this country, two weeks when he advertised,

Mr. Huller was the Mexican concessionaire of the International Company of Mexico, whose office in this city is at 160 Broadway.

An Evenino World reporter called at the office this morning and saw Mr. Edgar T. Wells, the President of the Company.

The first information of Huller's arrest was given to President Wells by the reporter.

"Mr. Huller has been our representative in Mexico for several years," said he. "He was also a large stockholder in the Company. At prosent I can't give any particulars regarding the trouble, I will say, however, that there has been an investigation going on down in Mexico for some time.
